

July 25, 2024

Greetings,

I am the husband of Fatima Nimer Al-Rimawi. I appeal to your international educational institution, Education International, and the Union of Workers in Private Schools and Kindergartens, which operates under the umbrella of the General Federation of Palestinian Trade Unions and collaborates with the American Federation of Teachers.

Given that Fatima is an active member of these international organizations, I request your support and call for her immediate release.

Fatima is a lover of peace and freedom, and she has always been an advocate for women's rights. She has consistently demanded women's rights through these institutions and worked to highlight their rights and duties. Fatima is currently suffering from foot pain and body allergies, and she is unable to read because she does not have access to glasses. We were unable to provide these for her as visitation is prohibited for everyone.

I urge you to do everything in your power to help. I am calling you from the oldest city in the world, Jericho, with ten thousand years of civilization, to stand with her and with the other women there, as there are mothers, teachers, and housewives inside the Damon prison who are suffering like her.

Peace and freedom for all. You have my utmost respect and appreciation for your efforts to help.

Ghassan Rimawi,
Husband of Fatima Rimawi
